Contents

VOLUME 5, NUMBER 1, JANUARY 1991

LANCE A. DURDEN and BERNARD F. PAGE: Ectoparasites of commensal rodents in Sulawesi Utara, Indonesia, with notes on species of medical importance 1–7

ALON WARBURG, JAMES MONTOYA-LERMA, CONSUELO JARAMILLO, ANA LUISA CRUZ-RUIZ and KATHERINE OSTROVSKA: Leishmaniasis vector potential of *Lutzomyia* spp. in Colombian coffee plantations 9–16

R. A. WIRTZ, Y. CHAROENVIT, T. R. BURKOT, K. M. ESSER, R. L. BEAUDOIN, W. E. COLLINS and R. G. ANDRE: Evaluation of monoclonal antibodies against *Plasmodium vivax* sporozoites for ELISA development 17–22

M. J. PACKER and M. L. WARNES: Responses of tsetse to ox sebum: a video study in the field 23–27

Y. RECHAV, F. C. CLARKE, D. A. ELS and J. DAUTH: Development of resistance in laboratory animals to adults of the tick *Rhipicephalus evertsi evertsi* 29–34

J. N. MAKUMI and S. K. MOLOO: *Trypanosoma vivax* in *Glossina palpalis gambiensis* do not appear to affect feeding behaviour, longevity or reproductive performance of the vector 35–42

G. A. OMOOGUN, O. O. DIPEOLU and O. A. AKINBOADE: The decline of a *Glossina morsitans submorsitans* belt in the Egbe area of the derived savanna zone, Kwara State, Nigeria 43–50

M. MIHARA and H. KURAHASHI: Base-line susceptibility of the oriental latrine fly, *Chrysomya megacephala* (Diptera: Calliphoridae), to five insecticides 51–54

DAVID LE SUEUR and BRIAN L. SHARP: Temperature-dependent variation in *Anopheles merus* larval head capsule width and adult wing length: implications for anopheline taxonomy 55–62

JOHN C. BEIER, FRED K. ONYANGO, MUTALIB RAMADHAN, JOSEPH K. KOROS, CHARLES M. ASIAGO, ROBERT A. WIRTZ, DAVY K. KOECH and CLIFFORD R. ROBERTS: Quantitation of malaria sporozoites in the salivary glands of wild Afrotropical *Anopheles* 63–70

JOHN C. BEIER, FRED K. ONYANGO, JOSEPH K. KOROS, MUTALIB RAMADHAN, ROSE OGWANG, ROBERT A. WIRTZ, DAVY K. KOECH and CLIFFORD R. ROBERTS: Quantitation of malaria sporozoites transmitted *in vitro* during salivation by wild Afrotropical *Anopheles* 71–79

JOHN C. BEIER and JOSEPH K. KOROS: Anatomical dissemination of circumsporozoite protein in wild Afrotropical *Anopheles* affects malaria sporozoite rate determination by ELISA 81–85

DIA-ELDIN A. ELNAIEM and RICHARD D. WARD: Response of the sandfly *Lutzomyia longipalpis* to an oviposition pheromone associated with conspecific eggs 87–91

M. T. Greenwood, F. Clark and J. S. Smith: Automatic recording of flea activity 93–100

S. Cohen, M. T. Greenwood and J. A. Fowler: The louse *Trinoton anserinum* (Amblycera: Phthiraptera), an intermediate host of *Sarconema eurycerca* (Filarioidea: Nematoda), a heartworm of swans 101–110

S. G. A. Leak, C. Colardelle, G. D'Ieteren, P. Dumont, A. Feron, P. Jeannin, M. Minengu, M. Mulungu, S. Ngamuna, G. Ordner, B. Sauveroche, J. C. M. Trail and G. Yangari: *Glossina fusca* group tsetse as vectors of cattle trypanosomiasis in Gabon and Zaire 111–120

J. O. Okoth, V. Okethi and A. Ogola: Control of tsetse and trypanosomiasis transmission in Uganda by applications of lambda-cyhalothrin 121–128

Short communications

Y. Braverman, O. Marcusfeld (Nir), H. Adler and B. Yakobson: Yellow jacket wasps can damage cows' teats by biting 129–130

David J. Fryauff, Hanafi A. Hanafi, Christina Bailly, E. A. Said-Salah and Mohammed Moussa: Phlebotomine sandflies of Djibouti: recent surveys 131–133

A. Voltz-Kristensen, B. Pesson, N. Leger, G. Madulo-Leblond, R. Killick-Kendrick and M. Killick-Kendrick: Phosphoglucomutase in phlebotomine sandflies of the subgenus *Larroussius* from Corfu Island, Greece 135–137

Tania T. S. Leal, Aloisio José Antunes and Angelo Pires do Prado: Growth of *Chrysomya putoria* blowfly larvae in relation to dietary casein concentration 139–141

F. Le Goff, I. Humphery-Smith, M. Leclercq and C. Chastel: Spiroplasmas from European Tabanidae 143–144

VOLUME 5, NUMBER 2, APRIL 1991

David B. Taylor, Leslie Hammack and Richard L. Roehrdanz: Reproductive compatibility and mitochondrial DNA restriction site analysis of New World screwworm, *Cochliomyia hominivorax*, from North Africa and Central America 145–151

R. Brightwell, R. D. Dransfield and C. Kyorku: Development of a low-cost tsetse trap and odour baits for *Glossina pallidipes* and *G.longipennis* in Kenya 153–164

R. H. Gooding, S. K. Moloo and B. M. Rolseth: Genetic variation in *Glossina brevipaplis, G.longipennis* and *G.pallidipes*, and the phenetic relationships of *Glossina* species 165–173

Y. M. Mansour and E. S. Krafsur: Induction of dominant lethal mutations for control of the facefly, *Musca autumnalis* DeGeer 175–181

Hoda A. Farid, Adel M. Gad, Ahmed M. Salem and Ahmed H. Kashef: Biochemical key to eight species of adult Egyptian mosquitoes 183–191

Mark Rowland: Behaviour and fitness of γHCH/dieldrin resistant and susceptible female *Anopheles gambiae* and *An.stephensi* mosquitoes in the absence of insecticide 193–206

MARK ROWLAND: Activity and mating competitiveness of γHCH/dieldrin resistant and susceptible male and virgin female *Anopheles gambiae* and *An.stephensi* mosquitoes, with assessment of an insecticide-rotation strategy 207–222

J. A. BISSET, M. M. RODRIGUEZ, J. HEMINGWAY, C. DIAZ, G. J. SMALL and E. ORTIZ: Malathion and pyrethroid resistance in *Culex quinquefasciatus* from Cuba: efficacy of pirimiphos-methyl in the presence of at least three resistance mechanisms 223–228

IAN HUMPHERY-SMITH, ODILE GRULET and CLAUDE CHASTEL: Pathogenicity of *Spiroplasma taiwanense* for larval *Aedes aegypti* mosquitoes 229–232

ENRIQUE G. LOYOLA, MIGUEL A. VACA, DAVID N. BOWN, ENRIQUE PÉREZ and MARIO H. RODRIGUEZ: Comparative use of bendiocarb and DDT to control *Anopheles pseudopunctipennis* in a malarious area of Mexico 233–242

THOMAS G. T. JAENSON and BIRKINESH AMENESHEWA: Prehibernation diet and reproductive condition of female *Anopheles messeae* in Sweden 243–252

T. J. LYSYK, D. D. COLWELL and R. W. BARON: A model for estimating abundance of cattle grub (Diptera: Oestridae) from the proportion of uninfested cattle as determined by serology 253–258

Short communication
W. N. BEESLEY and M. M. GABAJ: New records for *Rhipicephalus bursa, Boophilus microplus, B.decoloratus* and *Hypoderma lineatum* from Libya 259–260

BOOK REVIEWS 181–2, 192

VOLUME 5, NUMBER 3, JULY 1991

J. D. LINES and N. S. NASSOR: DDT resistance in *Anopheles gambiae* declines with mosquito age 261–265

A. HAVRON and J. MARGALIT: Pupal parasitoids (Hymenoptera: Pteromalidae) of muscoid filth flies in Israel 267–275

PHILIP B. MORGAN, EVONEO BERTI-FILHO and VALMIR A. COSTA: Life history of *Spalangia gemina* Boucek (Hymenoptera: Pteromalidae), a fast-breeding microhymenopteran pupal parasitoid of muscoid flies 277–281

SUSAN DANIELS, K. SIMKISS and R. H. SMITH: A simple larval diet for population studies on the blowfly *Lucilia sericata* (Diptera: Calliphoridae) 283–292

M. EICHNER, A. RENZ, G. WAHL and P. ENYONG: Development of *Onchocerca volvulus* microfilariae injected into *Simulium* species from Cameroon 293–297

R. RAJENDRAN and R. REUBEN: Evaluation of the water fern *Azolla microphylla* for mosquito population management in the rice-land agro-ecosystem of south India 299–310

DAVID E. GORLA: Recovery of *Triatoma infestans* populations after insecticide application: an experimental field study 311–324

SILVIA CATALÁ: The biting rate of *Triatoma infestans* in Argentina 325–333

SARAH E. RANDOLPH, DAVID J. ROGERS and JOHN KIILU: The feeding behaviour, activity and trappability of wild female *Glossina pallidipes* in relation to their pregnancy cycle 335–350

MINORU BABA and HIROYUKI TAKAOKA: Oviposition habits of a univoltine blackfly, *Prosimulium kiotense* (Diptera: Simuliidae), in Kyushu, Japan 351–357

JEFFERY A. MEYER and JAMES S. HUNTER, III: Residual activity of micro-encapsulated permethrin against stable flies on lactating dairy cows 359–362

B. D. PARASHAR, G. P. GUPTA and K. M. RAO: Control of the haemato-phagous fly *Hippobosca maculata*, a serious pest of equines, by deltamethrin 363–367

BERNICE WILLIAMS: Indicators of sexual maturation and regression in the female cat flea, *Ctenocephalides felis* 369–376

Short communications

BRYONY C. BONNING and JANET HEMINGWAY: Identification of reduced fitness associated with an insecticide resistance gene in *Culex pipiens* by microtitre plate tests 377–379

F. MARTÍNEZ-GÓMEZ, A. GASCA-ARROYO, F. DE JUAN and S. HERNÁNDEZ RODRÍGUEZ: Maternal anti-*Hypoderma* antibodies in calves 381–383

BOOK REVIEW 266

VOLUME 5, NUMBER 4, OCTOBER 1991

J. E. SHORT and J. P. EDWARDS: Reproductive and developmental biology of the oriental cockroach *Blatta orientalis* (Dictyoptera) 385–394

J. BRUCE ALEXANDER, JOHN NEWTON and GRAHAM A. CROWE: Distribution of Oriental and German cockroaches, *Blatta orientalis* and *Blattella germanica* (Dictyoptera), in the United Kingdom 395–402

JANE MEMMOTT: Sandfly distribution and abundance in a tropical rain forest 403–411

F. NOIREAU, A. NZOULANI, D. SINDA and P. CAUBÈRE: *Chrysops silacea* and *C.dimidiata* seasonality and loiasis prevalence in the Chaillu mountains, Congo 413–419

MOGENS MADSEN, GUNNER HØI SØRENSEN and SØREN ACHIM NIELSEN: Studies on the possible role of cattle nuisance flies, especially *Hydrotaea irritans*, in the transmission of summer mastitis in Denmark 421–429

LISE GERN, LINA N. TOUTOUNGI, CHANG MIN HU and ANDRE AESCHLIMANN: *Ixodes (Pholeoixodes) hexagonus*, an efficient vector of *Borrelia burgdorferi* in the laboratory 431–435

B. R. ASPOAS: Comparative micromorphology of third instar larvae and the breeding biology of some Afrotropical *Sarcophaga* (Diptera: Sarcophagidae) 437–445

D. R. BOOTH, R. J. MAHON and K. S. SRIPRAKASH: DNA probes to identify members of the *Anopheles farauti* complex 447–454

SUSANNAH M. HILL, RACHEL URWIN, TERESA F. KNAPP and JULIAN M. CRAMPTON: Synthetic DNA probes for the identification of sibling species in the *Anopheles gambiae* complex 455–463

JANE E. MILLER, S. W. LINDSAY and J. R. M. ARMSTRONG: Experimental hut trials of bednets impregnated with synthetic pyrethroid or organophosphate insecticide for mosquito control in The Gambia 465–476

S. W. LINDSAY, J. H. ADIAMAH, J. E. MILLER and J. R. M. ARMSTRONG: Pyrethroid-treated bednet effects on mosquitoes of the *Anopheles gambiae* complex in The Gambia 477–483

P. J. HAM, J. S. PHIRI and G. P. NOLAN: Effect of N-acetyl-D-glucosamine on the migration of *Brugia pahangi* microfilariae into the haemocoel of *Aedes aegypti* 485–493

M. J. LEHANE and A. R. MSANGI: Lectin and peritrophic membrane development in the gut of *Glossina m.morsitans* and a discussion of their role in protecting the fly against trypanosome infection 495–501

Short communications

K. NEWBERRY, Z. M. MCHUNU and S. Q. CEBEKHULU: Bedbug reinfestation rates in rural Africa 503–505

G. W. BECCALONI: *Balta notulata* is a domiciliary cockroach in Papua New Guinea 507–509

JENELLA LOYE and TIMOTHY W. REGAN: The Cliff Swallow Bug *Oeciacus vicarius* (Hemiptera: Cimicidae) in Florida: ectoparasite implications for hole-nesting birds 511–513
